Icons, Illustrations & Impressions: Selected work by Carolyn Bell

Carolyn's most recent work in abstract impressionism has added another layer to a body of work that also includes cartoons and line drawings. She became fascinated with the novels of Iris Murdoch and had the unforgettable experience of seeing some of Murdoch's characters appear to her as they spoke on the page. For her own amusement and from a deep respect and appreciation for Iris Murdoch's work, she began drawing the characters as she saw them. If you have a favourite character you would like her to draw, she will be very happy to oblige. For more information on the Iris Murdoch Society please visit their website and click on drawings.

THE HONEST FISHMONGERS EQUITY CO-OP

We play the 'Shakespearean way'!—telling stories through the word and the actor, complemented by costumes, music and a space that is influenced by the playhouses Shakespeare wrote for; which focuses the action in a way that can fully immerse the audience in the story and language of the play. This makes for a riveting, personal experience for each audience member and strips the common fear of Shakespeare right out of you.
